18. Learning methods:

In order to effectively teach and achieve the set goals of the course and competencies
students during the course will use the following methods:
- lectures,
- exercises (group / team work)

The contents of lectures and exercises are presented through an interactive approach, which means that students can discuss, exchange ideas with each other, learn from each other.
During or after lectures and exercises, for all ambiguities and explanations regarding them, the teacher and assistant are required to be available to students through consultations, contacts and support.

19. Assessment methods:

To check the acquired knowledge will be used:
- written and
- oral method

The written method includes a written knowledge test. The knowledge test will be realized through questions and answers from the content of the course. The same will be done after the realization of the planned lectures.
The oral part of the exam will be done on the basis of several questions from the teaching content and answers of students lasting 10-15 minutes.
As part of the pre-examination obligations, students will, during the lecture, do two (2) colloquia that will cover certain topics from the content of the subject, and can achieve from 0 to 10 points. Furthermore, for attending lectures and exercises, and continuous activity in lectures and exercises throughout the semester, a student can earn from 0 to 15 points.
The final exam is written and covers the topics covered in lectures and exercises throughout the semester. At the final written exam, a student can achieve from 0 to 25 points. In the oral part of the exam, the student can achieve from 0 to 25 points. After the pre-examination obligations, the written and oral part of the exam, the responsible teacher will form a joint grade together with the student.

20. Assessment components:

The grade on the exam is based on the total number of points earned by the student by fulfilling pre-exam obligations and taking the exam, and according to the quality of acquired knowledge and skills, and contains a maximum of 100 points and is determined according to the following scale:
Student Obligations Points
Attendance at lectures 5
