

MemBiophysics 2018 - Summer school announcement

You are invited to attend **MemBiophysics 2018**

<http://membiophysics.wixsite.com/summerschool2018>, the summer school on Membrane Biophysics: Impact of Lipids on Health, Disease and Therapy, to be held **from 25 to 29 June 2018 in FFUP/ICBAS complex, Oporto, Portugal.**

This summer school in membrane biophysics and advanced spectroscopic techniques is designed in an unprecedented and innovative way at the University of Porto. Thus, it is a unique opportunity of excellence training in interesting, current and relevant subjects for graduates, masters and doctoral students.

This second edition will bring together the theoretical concepts of membrane biophysics and its application to plan and perform experiments and critically analyze the data obtained with complementary biophysical techniques.

The University of Porto has designated this summer school as a Continuing Educational Activity with equivalence to 3 ECTS, according to the European Credit Transfer System (ECTS).

MemBiophysics 2018 is a Satellite Summer School of 2018 IIBC <http://www.sbe2018.com> (6th International Iberian Biophysics Congress & X Iberoamerican Congress of Biophysics) held in Castellón (Spain) from 20 to 22 June 2018.

Save the dates!

Pre-registration deadline: 30 April 2018

Acceptance notification: 15 May 2018

Registration deadline: 31 May 2018
