**INTERNATIONAL CONFERENCE ON RESEARCH IN EDUCATION AND SOCIAL SCIENCES
ICRESS 2019**

**February 03 - 07, 2019
Lisbon, PORTUGAL**

Dear Colleague,

We would like to invite you to the International Conference on Research in Engineering Technology and Science (ICRETS) and International Conference on Research in Education and Social Sciences (ICRESS) which will take place on February 03 - 07, 2019 at VIP Executive Entrecampos Hotel & Conference in Lisbon, Portugal. The conference is organized by the International Society for Research in Education and Science (ISRES).

The conferences are organized regularly. The conferences of the ISRES Organization supported by Iowa State University and Eastern Virginia Medical School.

After peer-reviewing process, all papers in English will be published in the Eurasia Proceedings of Educational & Social Sciences and Eurasia Proceedings of Science, Technology, Engineering & Mathematics.

The aim of the conferences are to bring together scholars, students, and administrators from different countries, and to discuss theoretical and practical issues in the fields of information and communication technologies in education, science education and mathematics education. Your prospective, valuable contributions on this field will be evaluated by the Scientific Committee and the ones approved to be presented will also be published in the Proceedings.

Opportunity for Second Conference Participation!

Conference participants can take part as listeners for free in the sessions of other Conference which will take place on February 03 - 07, 2019 in Lisbon, Portugal. The participants can also submit a paper to other conference. Please visit the conference web pages to register: International Conference on Research in Engineering, Technology and Science (ICRETS) and International Conference on Research in Education and Social Sciences (ICRESS)

PUBLICATION OF PRESENTATION PAPERS

After peer-reviewing process, selected papers will be published in the:

International Journal of Education in Mathematics, Science, and Technology - IJEMST

International Journal of Research in Education and Science - IJRES

Journal of Education in Science, Environment and Health - JESEH

EDUCATION RESEARCH HIGHLIGHTS IN MATHEMATICS, SCIENCE AND TECHNOLOGY

An annual book entitled "Education Research Highlights in Mathematics, Science and Technology" will be published from the conference papers.

The book chapters will be selected by the editorial board from the full papers of the conference. All submissions will be reviewed by at least two international reviewers.

The book will provide the conference presenters with the opportunity of a scholarly refereed publication in the field of education in mathematics, science and technology.

Education Research Highlights in Mathematics, Science and Technology will be published by ISRES Publishing and will be available online after the conference.

Edited Book Publication

If the authors want to publish their conference paper (selected and accepted for the book or the journal) in the conference proceedings, then they need to publish only the short version (between 750-1500 words) of the paper in the conference proceedings. The full version of the conference papers will be published in the book or the journal. If a full paper is not accepted for the book or the journal, the full paper will be published in the conference proceedings after the conference.

In order to publish in Education Research Highlights in Mathematics, Science and Technology, the paper authors must have attended the conference and presented their papers at the conference.

Edited Book Publication Format

Edited book papers should be submitted in the format of the proceedings. Please see the paper guidelines on the conference web page.

SOCIAL EVENTS FREE TOUR: Sintra- Cabo da Roca - Cascais Tour

Sintra

A beautiful town at the foot of the mountain range of the same name, its unique characteristics have led UNESCO to classify it as a World heritage site. It was even necessary to create a special category for the purpose - that of "cultural landscape" - taking into account its natural riches as well as the historic buildings in the town and mountains. Endowed with luxuriant vegetation, the mountains are part of the Sintra-Cascais Natural Park.

Cabo da Roca

Cabo da Roca, the westernmost point of mainland Europe. Located at latitude 38° 47° north and longitude 9° 30° west, Cabo da Roca is an important coordinate for those sailing along the coast, as it is the most westerly point of mainland Europe, a fact borne out by the certificates that visitors take away as a souvenir. Around 150 metres above the sea, here you can have a panoramic view over the Serra de Sintra and the coast, which makes it worth the visit. Historical records indicate that there was a fort on Cabo da Roca in the 17th century that played an important part in guarding the entrance to Lisbon' s harbour, forming a defensive line along the coast, especially during the Peninsular Wars. Today there are only traces, as well as the lighthouse which is still an important point for navigation.

Cascais

Situated close to the sea and traditionally a fishing village, Cascais enjoyed an important period of development in the 14th century, when it was a major stopping off point for boats on their way to Lisbon, turning it into a very busy port at that time. A special mention is reserved for the local cuisine, especially the fresh fish and shellfish dishes that are served here and which can be enjoyed in the region's many restaurants.

Program:

Pick up from hotel at 9 a.m.
Visit Sintra
Visit Cabo da Roca
Visit Cascais
Transfer to hotel or city center at 6 p.m.

ALFAMA WALKING TOUR

Alfama, the village inside the town saves the traditional atmosphere of the small towns in Portugal's countryside with beautiful courtyards, winding narrow alleys and streets where children are playing outside and the old ladies talking. The name Alfama itself means bath comes from Moorish time 'Al-Hamma' because this quaint neighborhood used to be the thermal springs of Lisbon and also where the jews would later on live. Get the chance to explore the hidden corners of this charming place with cute colorful pastel houses and you might be even able to listen to the sound of the Portuguese music Fado while exploring the secrets of Alfama.

BELEM TOUR

Belem, known as the quarter of the Discoveries, this are the formers lands where the explorers would depart on their adventures to the unknown. Vasco da Gama found the sea route to India when he sailed out from here to the dangerous waters of Coastal Africa. The architecture itself is a symbol of this period where the World Heritage Sites Monastery of Saint Jerome and Tower of Belem are the highlights, surviving the 1755 earthquake. But it's also in this quaint neighborhood located by the river that you can taste the most famous pastry in Portugal - the Pasteis de Belem.

FADO

Fado, this expression of sorrow and longing is the Portuguese national music where the Portuguese guitar gives the melody to the tune of the Portuguese daily life. Also known as the Portuguese blues, the fadistas perform it with such a strong emotional power reflected on the word "saudade" the feeling of longing for something you did achieve or not that comes from the bottom of your heart. Born in the streets of the oldest quarters of Lisbon, Fado was classified by the Unesco in 2011 as World's Intangible Cultural Heritage, and as our iconic singer Mariza said "So now Fado not only belongs to Portugal, but to the world."

ÓBIDOS- NAZARE-BATALHA- FATIMA

Óbidos

The mediaeval town of Óbidos is one of the most picturesque and well preserved in Portugal. Quite close to the capital and located on high ground near the Atlantic coast, Óbidos has had a strategic importance in the territory. It had already been settled prior to the Romans' arrival in the Iberian Peninsula, and the town prospered after being chosen by the royal family. King Dinis offered it to his wife, Queen Isabel, in the 13th century, and it became part of Casa das Rainhas (Queens' Estate), who improved and enriched it throughout the various dynasties. This is one of the main reasons for the high concentration of churches in this small place. You will find a well preserved castle within the walls, and a maze of streets and white houses that are a delight to stroll amongst. Along with the Manueline porticoes, the colourful window boxes and the small squares, many fine examples of religious and civil architecture from the town's golden days provide a host of reasons for making a visit.

Nazaré

A typical fishing town, Nazaré is nowadays a busy summer resort, where side by side with the crowds of tourists, one still sees all over the streets of the town the fish-sellers, and the carapaus (horse

mackerel) laid out to dry. The Sitio district, at the town's highest point (accessible by a funicular), is without doubt the best viewpoint in the area. But it is also associated with the cult of Our Lady of Nazaré who, according to the 12th century legend, was invoked by the alcaide (commander of a fortress or castle) Dom Fuas Roupinho who, while stalking a deer, was about to fall down into an abyss with no possible salvation. As a sign of gratitude for the mercy he received, Dom Fuas Roupinho ordered a small chapel to be built - the Ermida de Memória. A little way away, in the 18th century the Sanctuary of Our Lady of Nazaré was built, in whose honour grandiose festivals are held in September.

Batalha

The town of Batalha developed alongside the Monastery of Santa Maria de Vitória, constructed in 1386 to keep a vow by Portuguese King Dom João I to the Virgin Mary that he would build it if Portugal defeated Castile at the Battle of Aljubarrota on 14th August 1385. Extravagant celebrations commemorating this victory are held next to the monastery in August of every year. The Monastery of Batalha, a masterpiece of Portuguese Gothic, is a magnificent piece of architecture that combines various influences from its lengthy period of construction, which lasted several reigns. Outstanding in the interior are the Founders' Chapel with its fine stained-glass windows, the cloisters, the Unfinished Chapels with their Manueline and Flemish Gothic features and the Chapter House.

Fátima

With its origins deep in history, it was during the Arabian occupation that this settlement developed and was named. According to legend, during the Christian Reconquest, the Templar knight Gonçalo Hermingues, also known as Bringer-of Moors, fell in love with Fátima, a Moor captured in the course of an ambush. Reciprocating the love, the young woman converted to Christianity and adopted the name Oureana. In the sixteenth century, the settlement became a parish in the collegiate church of Ourém within the Diocese of Leiria. Its subsequent development dates from the events known as the Apparitions of Fátima, in the early part of the twentieth century. It has become one of the key centers for the Cult of the Virgin Mary in Portugal and has been recognised world-wide by the Catholic Church. The first apparition took place in 1917, in Cova da Iria, at the site of the current Sanctuary. The most important celebrations are held on 13th May (including the Candlelit Procession on the night of the 12th and the Farewell Procession closing the event on the 13th) and 13th October. Furthermore, the 13th of every month between these two dates is also a day of devotion

DAILY PORTO TOUR

Porto is the second-largest city in Portugal after Lisbon and one of the major urban areas of the Iberian Peninsula. Porto is one of the oldest European centers, and its historical center was proclaimed a World Heritage Site by UNESCO in 1996.

Porto was elected The Best European Destination by the Best European Destinations Agency in 2012, 2014 and 2017.

In addition to its history, any visitor to Porto will be quickly impressed by the forceful character both of the city and its inhabitants. The downtown of Porto is called 'Baixa' where all the rhythms of city life, movement and intense retailing are found. There is a very peculiar expression which bestows a Nordic, mercantile tone onto a city that is both spiritually and intensely baroque. In sharp contrast, in the Serralves Park, there is the sheer modernity of the building housing the Museum of Contemporary Art, and the romantic, soothing surroundings of the surrounding leafy park.

Program:

Pick up from hotel at 9 a.m.
