

SYLLABUS

1. Course title:

PSYCHOLOGY

2. Code:

3. Cycle of study:

4. ECTS credits:

5. Type of course:

☒ Mandatory ☐ Elective

6. Prerequisites:

none

7. Class restrictions:

none

8. Duration / semester:

9. Weekly contact hours:

9.1. Lectures:

2

9.2. Seminars:

1

9.3. Laboratory/Practice classes:

0

10. Faculty:

Humanities and Social Sciences

11. Department/study program:

Turkish language and literature

12. Lecturer:

13. Lecturer's e-mail:

14. Web site:

www.ff.untz.ba

15. Course aims:

The aims of this course are:

- to acquire theoretical knowledge in the field of General Psychology, Developmental Psychology and Educational Psychology
- to understand fundamental psychological processes and developmental changes and recognize them in the teaching process.

16. Learning outcomes:

At the end of the course the students are expected to be able to:

- Use different theories and approaches in psychology
- Use contemporary terminology and definitions in the field of psychology
- Apply knowledge in the field of Educational psychology in the teaching process
- Use an adequate strategy of learning and teaching in critical thinking
- Understand the basic developmental processes that are foundations of human behavior
- Apply research methods in the field of psychology
- Develop teaching skills

17. Course content:

1st week: Psychology as a science
2nd week: Methods and techniques of research in psychology
3rd week: Basic determinants of the development of children and adolescents
4th week: Paradigms of the development of children and adolescents
5th week: Development of personality
6th week: Cognitive development
7th week: Characteristics of learning in early and late school age
8th week: Midterm test
9th week: Learning, memory and forgetting
10th week: Transfer in learning
11th week: The characteristics of the teaching process that contributes to the optimal learning effects
12th week: Motivation and learning
13th week: Class atmosphere and interactions
14th week: Gifted students and students with developmental difficulties
15th week: Final test

18. Learning methods:

Lectures and practical classes with the use of various multimedia teaching aids, including active participation of students.

In lectures and practical classes will be used: the method of oral presentation, method of demonstration and illustration, seminar discussions, interactive teaching methods.

19. Assessment methods:

The written method of assessment includes two tests, including the topics covered during the semester up to that point both in lectures and in practical classes. Students can earn a maximum of 20 points per test.

The final exam is in written form, and includes the topics covered over the entire semester. Students can earn a maximum of 50 points on the final exam.

Pre-exam points amount to a total of 50 points (40 points for the two tests and another 10 for attendance and active in-class participation. By fulfilling all of their requirements, students can thus earn a maximum of 100 points.

Test points count towards the final grade cumulatively if students score at least 50% points on both the test and final exam.

In order for students to earn the minimum passing grade, they need to score at least 54 cumulative points, of which at least 25 on the final exam. The final grade is formed as a sum of all points earned in-class, the test and the final exam.

20. Assessment components:

Attendance in lectures and practical classes: 10 points

Active participation in lectures and practical classes: 10 points

Individual project: 10 points

Group project: 10 points

Final written exam: 50 points

Final oral exam: 10 points

Total points: 100

The following is the grading scale, showing the points, numerical grade, descriptive grade and letter grade:

0-53 5 (five) fail F

54-63 6 (six) satisfactory E

64-73 7 (seven) good D

74-83 8 (eight) very good C

84-93 9 (nine) excellent B

94-100 10 (ten) outstanding A

21. Required reading list:

- Stojaković, P. (2010). Psihologija za nastavnike. Grafid: Banja Luka.
