

## SYLLABUS

**1. Course title:**

PROFESSIONAL PRACTICE

**2. Code:****3. Cycle of study:****4. ECTS credits:****5. Type of course:** Mandatory  Elective**6. Prerequisites:**

No prerequisites

**7. Class restrictions:**

No class restrictions

**8. Duration / semester:****9. Weekly contact hours:**

9.1. Lectures:

9.2. Seminars:

9.3. Laboratory/Practice classes:

**10. Faculty:**

Faculty of Technology

**11. Department/study program:**

Agronomy

**12. Lecturer:****13. Lecturer's e-mail:**

**14. Web site:**

www.tf.untz.ba

**15. Course aims:**

Training students to work in farms and industry.

**16. Learning outcomes:**

At the end of the professional practice, successful students will:

- know the organization and functioning of production processes,
- know the softwares for work in the use and maintenance of agricultural machinery and equipment in the agricultural production.

**17. Course content:**

Professional practice is conceived as part of the learning process of students, through which they will be included in the daily activities at the experimental agricultural fields/farms, agricultural enterprises, institutions or organizations, industry of agricultural machinery and equipment. The practice is performed during the sixth semester in agreement with the teacher of an elective course.

**18. Learning methods:**

Professional practice is realized by program of practice in farms, or enterprises producing agricultural machinery and equipment, through direct engagement of students, with supervision. In the course of performing practice, a student keeps a diary in which enters the daily activities as well as a detailed description of the activities he was engaged in.

**19. Assessment methods:**

Diary of work at professional practice. Seminar paper.
